STRONG BRANDS, GUARANTEED QUALITY

TVH is your global one-stop shop for parts and accessories for material handling equipment. Regardless of the make, type and year of construction of your material handling or industrial equipment machine: TVH always has a solution.

Reliable products and services contribute to the day-to-day success of your company. That's why we at TVH choose top quality brands for our maintenance, repair and operation products, just like you do.

In addition, our strong house brands guarantee an excellent range and quality standard for mechanical and hydraulic attachments, internal transport equipment, battery chargers and accessories ...

QUALITY IS OUR PRIORITY

Is quality also a priority in your business? Rely on TVH as your partner.

In-depth product knowledge and specific testing equipment allows us to continuously improve processes and quality standards.

PROFESSIONAL TRAINING CENTRE

TVH University provides **practice-oriented technical training courses** suitable for industrial vehicles such as forklifts, telehandlers, mobile elevating work platforms, small earth-moving equipment and tractors.

- **Get certified** in industry-related topics such as internal combustion engines, electrics/electronics, hydraulics, and power electronics
- **Highly qualified trainers** with years of practical experience
- Courses include both **in-person** training classes and **digital** training packages

THE RIGHT BRAKE PART TO KEEP YOU GOING

Stop! In the name of safety. Perfectly functioning brakes are essential in every vehicle. Luckily for you, we offer a very wide range of brakes and related parts. This includes air brakes, brake pads, electric brakes, hydraulic brakes, brake fluid and all other possible accessories for brakes: assemblies, bands, drums, adjusters, reservoirs, pads, linings and much more.

DISCOVER OUR RANGE OF BRAKES

Air brakes: a very, very reliable safety asset for your machine. To ensure maximal braking power, regular maintenance is advised. We have a wide range of air brake parts, ranging from camshafts and cylinders to brake repair kits.

Brake pads and shoes: essential brake parts that have to endure a lot. Over time, they will need repairing or replacement. Rely on our vast offer of brake pads, pucks, shoe kits and lining to keep working safely.

Electric brakes: our extensive range of compact electric brake parts is ready to increase safety thanks to the high and adjustable torque, easy mounting, low power consumption and high wear resistance. The electric brake discs, brake friction plates and other parts in combination with our technical expertise will keep you going.

Hydraulic brakes: these powerful, accurate and efficient brakes enhance safe working conditions. When maintained properly, that is. To prevent leaks and messy situations, you can count on our large range of hydraulic brake parts. Assemblies, adjusters, cylinders, fluids, power brakes and more: we are ready to keep your machine fleet going.

THE RIGHT BRAKE PART TO KEEP YOU GOING

Advantages of Hydraulic brakes, brake pads & shoes, air brakes and electric brakes for:
material handling, construction and agriculture.

HYDRAULIC BRAKES

Enhanced Performance:

Hydraulic brakes provide improved braking performance, which is crucial in applications such as construction, agriculture and material handling.

Efficiency:

Hydraulic brakes work in such a way that they are quick to activate and offer very little chance of slippage or loss of momentum. This enables the machinery to operate as efficiently as possible.

Safety:

Hydraulic brakes offer a safe and reliable braking system that is essential for construction, agriculture and material handling machinery.

BRAKE PADS & SHOES

Durability:

Brake pads and shoes are manufactured with strong materials, making them able to withstand the harsh conditions that are common in construction, agriculture and material handling.

Versatility:

Brake pads and shoes are versatile, and can be easily customised to fit various machinery.

Reduced Wear:

Brake pads and shoes are specifically designed to reduce wear and tear on both braking systems and machinery, which can extend the lifespan of the equipment.

THE RIGHT BRAKE PART TO KEEP YOU GOING

Advantages of Hydraulic brakes, brake pads & shoes, air brakes and electric brakes for:
material handling, construction and agriculture.

AIR BRAKES

High-Performance:

Air brakes offer a high-performance braking system that is essential for heavy-duty applications such as construction and agriculture.

Cost-Effective:

Air brakes do not require constant maintenance, making them a cost-effective alternative to other braking systems.

Highly Reliable:

Air brakes are highly reliable since they are less likely to overheat or fail under extreme conditions.

ELECTRIC BRAKES

Low Maintenance:

Electric brakes require very little maintenance, making them cost-effective and ideal for applications such as material handling.

Precision:

Electric brakes offer precise control, which is crucial in construction, agriculture and material handling machinery.

Eco-Friendly:

Electric brakes are an eco-friendly option as they do not produce any emissions, making them ideal for green applications.
