

Is your forklift summerproof?

Work safely during your summer maintenance: use safety products for your warehouse and protect yourself

Take your time for general maintenance and repairs (chain, radiator and cooling system ...) and have a look at the hand and power tools that might help you

Protect yourself and your machine against the sun and rain

Use comfortable workwear to perform your maintenance

Install or renew lights

Renew the decals on your machine

Repaint your machine and make it shine again

Consider warehouse and handling equipment to facilitate your summer maintenance
