

7. WINTER PRODUCTS

Tired of spreading salt manually? We have a high-quality range of spreaders, from manual models to spreaders you can attach to your lift truck or trailer. Furthermore, steel salt spreaders are also part of our range!

7.1. SPREAD SALT

Overview

Spreaders for sand, salt and grit

TOTALSOURCE®

Too much snow in your car parks, work area, aisles ... Not looking forward to spending several hours sprinkling salt again? Gain more time to focus on other things thanks to our TotalSource spreaders. They are specifically designed to spread rock salt, dry sand and other high-volume gritting materials.

If you opt for a stainless steel version, you don't need to clean the salt spreader after every single use. The stainless steel material even ensures a longer service life.

The range features different types of salt spreaders or gritters in various materials and with different capacities.

2 Storage box for salt - 280 l

- › Length: 1090 mm
- › Width: 500 mm
- › Height: 730 mm

REF 139TA3169

Notes

Our snow removal products will be your perfect sidekick during the winter season. Clearing snow has never been such an easy job!

7.2. REMOVE SNOW

Snow ploughs

A snow plough allows you to easily clear snow and is an ideal attachment to ensure your operations keep moving during the winter months. The concave design prevents snow from building up and damaging or immobilising your lift truck. This attachment can also be used in the summer for yard clean-up.

Product movie

Snow ploughs allow you to easily move snow and can be fitted onto your lift truck. Their concave design prevents snow from bottling up and damaging or immobilizing your lift truck. Also used for cleaning other materials like sand or leaves.
